

Hazard warning flasher

The hazard warning flasher is used to warn other drivers.

Push the hazard warning button to turn on the hazard warning flasher. To turn off the flasher, push the button again. The hazard warning flasher works with the ignition switch in any position.

NOTE

When the hazard warning flasher is on, the turn signals do not work.

Light control

■ Light switch

WARNING

To prevent battery discharge resulting from accidentally leaving your lights on when your vehicle is parked, the light switch operates only when the ignition switch is in the “ON” position. In any other position, the vehicle’s lights will be out.
