

## SERVICE BULLETIN

**APPLICABILITY** ALL SUBARU VEHICLES

**DATE** 06-06-97

**SUBJECT** TIE DOWN PROCEDURES TO PREVENT ENGINE DAMAGE

When any Subaru vehicle is tied down, it is required that the transmission be left in neutral with the emergency brake firmly applied. The vehicle is to be kept in neutral during transportation.

**Please ensure all necessary personnel are informed of this important information.**

**CAUTION**

**VEHICLE SERVICING PERFORMED BY UNTRAINED PERSONS COULD RESULT IN SERIOUS INJURY TO THOSE PERSONS OR TO OTHERS.**

Subaru Service Bulletins are intended for use by professional technicians ONLY. They are written to inform those technicians of conditions that may occur in some vehicles, or to provide information that could assist in the proper servicing of the vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do the job correctly and safely. If a condition is described, DO NOT assume that this Service Bulletin applies to your vehicle, or that your vehicle will have that condition.
